Q2 2026 Fund Commentary

Commentary and opinions are provided by TD Greystone Managed Investments Inc..

Market commentary

Markets rebounded firmly in the second quarter of 2026 after first-quarter volatility, with global and U.S. equities rallying to new record highs by early June. Performance was largely driven by continued strength in artificial intelligence (AI)-related themes and a standout quarter for semiconductor companies. Canadian equities also delivered positive returns, though gains moderated late in the quarter as declines in energy and gold prices created modest challenges.

Macroeconomic uncertainty persists, with elevated energy prices and ongoing tariff concerns weighing on inflation expectations. Despite this, credit spreads remain near historically tight levels, reflecting continued confidence in corporate balance sheets. U.S. hyperscalers, including Amazon.com Inc., Apple Inc. and Space Exploration Technologies Corp., accessed the Canadian debt market in size to fund AI-related investments. Canadian fixed income generated modest positive returns during the quarter, supported by declines in long-term yields and strong credit performance.

Performance

Security selection in international and U.S. equities contributed to performance. An underweight allocation to fixed income also contributed to performance.

The top contributor was the TD Greystone International Equity Fund, which benefited from positive security selection.

Cash holdings slightly detracted from performance as both equities and fixed income outperformed, although cash is necessary from a liquidity standpoint.

The TD Emerald Canadian Short Term Investment Fund was the largest individual detractor over the quarter because of asset allocation effects.

Portfolio activity

U.S., international and Canadian equity weights were reduced as the underlying holdings drifted upward past the target overweight and, in the sub-advisor's view, it was prudent to take profits and rebalance back to target. Proceeds from the equity rebalance were invested into money market instruments, providing optionality if new opportunities arise.

CAN Canadian Neutral Balanced 75/75 (PS2)

September 30, 2026

Outlook

In the sub-advisor's view, the macroeconomic backdrop remains modestly constructive. Clear risks remain, including uncertainty tied to the ongoing Middle East conflict and the potential for a more aggressive interest rate path under a new U.S. Federal Reserve Board Chair. These risks are being balanced by supportive dynamics, including continuing AI-driven capital expenditure momentum and valuations that are elevated but not obviously stretched. The sub-advisor has taken profits and reduced equity back to the target overweight, reallocating toward the short end of the curve. The sub-advisor remains attentive to macroeconomic developments and prepared to add core fixed income should yields become more attractive, while continuing to emphasize diversification.

*For Partner series and Preferred partner series an advisory and management services (AMS) fee, of between 0.50% and 1.25%, is negotiated between you and your advisor. The MER doesn't include this fee.

Canada Life is currently waiving a portion of the investment management fees on the High Interest Savings fund to target an estimated management expense ratio of 1.00%. Canada Life is not obligated to continue waiving these fees and it may cease to do so at any time without notice.

The 7-day annualized yield is based on the annualized total return of the fund over the past seven calendar days and does not represent an actual one-year return. It's important to note that 7-day annualized yield is not an indicator of future performance of the fund.

^Deferred Sales Charge (DSC) purchase option is not available for new contributions given regulatory bans that came into effect June 1, 2023. For certain policies where DSC is the only sales charge option available, new contributions may be accepted. Additional disclosure may be required.

†Soft capped - Contributions are no longer accepted to new investors., ‡Hard capped - Contributions are no longer accepted.

FundGrade A+® is used with permission from Fundata Canada Inc., all rights reserved. The annual FundGrade A+® Awards are presented by Fundata Canada Inc. to recognize the "best of the best" among Canadian investment funds. The FundGrade A+® calculation is supplemental to the monthly FundGrade ratings and is calculated at the end of each calendar year. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio, and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then weighted equally in calculating a monthly FundGrade. The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. The FundGrade A+® uses a GPA-style calculation, where each monthly FundGrade from "A" to "E" receives a score from 4 to 0, respectively. A fund's average score for the year determines its GPA. Any fund with a GPA of 3.5 or greater is awarded a FundGrade A+® Award. For more information, see www.FundGradeAwards.com. Although Fundata makes every effort to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Fundata.
