## Q1 2026 Fund Commentary

*Commentary and opinions are provided by Putnam Investments.*

### Market commentary

Growth stocks were weak during the first quarter of 2026, as elevated valuations and high expectations met rising interest rates and investor concerns about the near-term returns on heavy artificial intelligence spending. Information technology stocks underperformed, leading the broader decline in growth-oriented names. Geopolitical uncertainty and persistent inflation drove a rotation into more cyclical and value-oriented sectors during the quarter.

### Performance

Stock selection within the industrials, information technology and communication services sectors contributed to performance during the quarter. GE Vernova LLC, Lam Research Corp. and Caterpillar Inc. contributed to performance.

Selection within the health care and real estate sectors detracted from performance during the quarter. Guidewire Software Inc., Boston Scientific Corp. and Capital One Financial Corp., an out-of-benchmark allocation, detracted from performance during the quarter.

### Portfolio activity

The sub-advisor added Costco Wholesale Corporation and Quanta Services Inc. during the quarter. The sub-advisor also increased Meta Platforms Inc.

The sub-advisor sold Guidewire Software Inc. and AppLovin Corporation. The sub-advisor also reduced Nasdaq Inc. and Boston Scientific Corporation.

### Outlook

The sub-advisor anticipates some degree of broadening leadership in the growth universe going forward, along with increased volatility. Over the balance of the year, the sub-advisor expects to see stock-specific opportunities emerge and believes the Fund may be positioned for long-term growth.

The sub-advisor is also monitoring several anticipated high-profile initial public offerings (IPOs) this year, including SpaceX, OpenAI and Anthropic. The sub-advisor's expectation is that the initial benchmark weight could be quite small. Any IPO participation decision depends on fundamentals, industry analysis and valuation-based risk-reward.

Potential challenges for equities include worsening consumer sentiment, rising inflation, elevated valuations and ongoing geopolitical tensions. The sub-advisor noted that strong equity returns are rarely realized in a straight line and are often accompanied by high volatility. The sub-advisor believes heightened volatility can bring ongoing risks but could also present attractive opportunities for long-term, fundamental investors.

\*For Partner series and Preferred partner series an advisory and management services (AMS) fee, of between 0.50% and 1.25%, is negotiated between you and your advisor. The MER doesn't include this fee.

Canada Life is currently waiving a portion of the investment management fees on the High Interest Savings fund to target an estimated management expense ratio of 1.00%. Canada Life is not obligated to continue waiving these fees and it may cease to do so at any time without notice.

The 7-day annualized yield is based on the annualized total return of the fund over the past seven calendar days and does not represent an actual one-year return. It's important to note that 7-day annualized yield is not an indicator of future performance of the fund.

^Deferred Sales Charge (DSC) purchase option is not available for new contributions given regulatory bans that came into effect June 1, 2023. For certain policies where DSC is the only sales charge option available, new contributions may be accepted. Additional disclosure may be required.

†Soft capped - Contributions are no longer accepted to new investors., ‡Hard capped - Contributions are no longer accepted.

Distribution of the chart, history standard and short-term reports are not permitted without including the fund profile long-term report. A description of the key features of Canada Life's individual variable insurance contract is contained in the information folder, available from your advisor. Any amount that is allocated to a segregated fund is invested at the risk of the policyowner and may increase or decrease in value. Funds are available through a segregated funds policy issued by Canada Life. Canada Life and design are/is a trademark(s) of The Canada Life Assurance Company.

FundGrade A+® is used with permission from Fundata Canada Inc., all rights reserved. The annual FundGrade A+® Awards are presented by Fundata Canada Inc. to recognize the "best of the best" among Canadian investment funds. The FundGrade A+® calculation is supplemental to the monthly FundGrade ratings and is calculated at the end of each calendar year. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio, and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then weighted equally in calculating a monthly FundGrade. The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. The FundGrade A+® uses a GPA-style calculation, where each monthly FundGrade from "A" to "E" receives a score from 4 to 0, respectively. A fund's average score for the year determines its GPA. Any fund with a GPA of 3.5 or greater is awarded a FundGrade A+® Award. For more information, see [www.FundGradeAwards.com](http://www.FundGradeAwards.com). Although Fundata makes every effort to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Fundata.
